Cyberbullying Policy

Oyster Bay Public School is committed to providing a safe environment to our students both online and offline. We aim to create a generation of good cybercitizens, controlling the technology instead of being controlled by it.

Our Definition of Cyberbullying

Cyberbullying is when any person is tormented, harassed, humiliated, embarrassed or otherwise targeted by any other person using the Internet, interactive and digital technologies or mobile phones.

Strategies We Will Use To Deal With Cyberbullying

At Oyster Bay Public School we will:

- Educate the students about consequences of cyberbullying.
- Develop an awareness of the negative impact that this form of bullying can have on a child.
- Teach students to respect others, take a stand against bullying and report incidences.

The responsibilities of staff and students, reporting and responding to repeated incidences remain the same for cyberbullying as is outlined in the Oyster Bay Public School's Antibullying Policy Internet and Email Policy
